

The New 2020N/2040N Turbine Series Filters

Racor Introduces the Redesigned 2020/2040 Fuel Filter/Water Separator

In an effort to continually improve product design and functionality for our customers, Racor has upgraded the Turbine Series fuel filter/water separator. Improvements include:

- Improved bail design (bails moved to top of filter).
- No metal v-clip. Side seam creates less waste.
- Reverse compatible with all previous Racor Turbine models.
- Trusted Aquabloc media is used in the redesigned fuel filter water separator.
- The redesigned fuel filter water separator is manufactured on State-of-Art equipment in our new world class manufacturing center.
